

Cindy Thienes • Accounts Receivable Manager

I have worked in the financial department since 1986. What I see at Heritage, is the belief of the original founder of Heritage of Edina, Wayne Field:

- We are dedicated to an unshakeable philosophy of “Reverence for Life”

This philosophy still lives on with Maria Field, his wife, running the day-to-day operations accordingly. Having the owner living on the property makes such a difference. It is a unique place with a feeling you can’t get at a corporate-run facility.

I know how much we care here; you see it in everything that happens. I would recommend Heritage to anyone. There is no better testimony than a happy resident, and that keeps me coming back.
