

Sandy Hovdet • Marketing and Admissions

Admissions' has been my role at Heritage of Edina since 1998. I enjoy:

- Working with the seniors and their families
- Also helping them to understand the many variations of assisted living that we have available to them.

For some families, making the decision to move into an assisted living facility can be extremely stressful. Once the decision has been made we really try to help make the transition from their home into their new “home” as stress free as possible.

It is nice to hear them say “I should have made this move a couple of years ago!”

The part of my job that I enjoy the most is meeting so many new and interesting people and having them share all the things they've done in their lifetime.
