

Kate Sones • Director of Nursing

I am the RN, Director of Nursing at Heritage of Edina. When I graduated from nursing school, 17 years ago, my Aunt and Uncle lived in one of the apartments at Heritage. That enabled me to know what a wonderful place it was. So, I thought, why not apply as an RN case manager here? Lucky for me, Heritage hired me in 1996. I absolutely love working here with our wonderful residents, families and staff. The care, concern and reverence for the residents is what makes Heritage special. I would never want to work anywhere else.
