

To our Residents and Family Members,

This letter is to inform families that every employee here at Heritage of Edina continues to do their best to ensure the safety, health and wellbeing of all of our residents as we battle through COVID-19. The CDC and MDH have recommended a variety of steps that we have implemented to help reduce the spread of the virus in our buildings. We will continue to follow the guidelines and stay up-to-date with their recommendations

If one of our residents tests positive for COVID-19 or if they're suspected of having it, their family will be made aware by phone immediately. Heritage is comprised of three buildings. If your loved one resides in a building that another resident tests positive for COVID-19 we will let you know by email. We will also post updates to our website heritageofedina.com as they become available.

Please note that our nursing staff is under high demand to meet the needs of our residents ensuring every single day that we're keeping everyone safe and healthy. If you have any questions or concerns regarding Covid-19, please contact us via our website.

This is a tough battle but we're all fighting it together and we will get through this. Thank you all for your care and support!

Heritage of Edina
